Framework for occupational health and safety in Denmark

- OSH Authorities

Name of the Authority	The Danish Working Environment Authority (DWEA)
Link	http://engelsk.arbejdstilsynet.dk/en
Short abstract	<p>The Danish Working Environment Authority (DWEA / Danish: Arbejdstilsynet - abbreviated AT) is an agency that works under the auspices of the Ministry of Employment at national and regional level, contributing to the creation of safe working conditions. It is empowered with supervision and enforcement rights, which are commonly designated to labour inspectorates in other countries. The three main fields of activity are:</p> <ul style="list-style-type: none"> Carrying out inspections in companies. Drawing up OSH rules. Providing OSH information. <p>The DWEA has the authority to penalise companies which do not comply with the working environment rules. They can also issue administrative fines for clear violations of the Working Environment Act, and in cases of extreme danger, they may also order work to be suspended.</p> <p>The DWEA is managed by an Administrative Board made up of the Director-General, 2 Deputy Directors and three Inspection Directors. The headquarters and two of the four centres are</p>

	<p>located in Copenhagen. The regional Inspection Centres with approximately 100 employees each.</p> <p>The Working Environment Authority is responsible for the inspection of OSH conditions in companies. This includes verifying that a written evaluation has been carried out, specific to that particular workplace. This is equivalent to a risk assessment in the terminology of the EU-OSH Directives.</p> <p>If the company's working environment and the health and safety policies are found to be in good order, no reason is seen for a new inspection in the near future. However, if problems are found, the company will be visited within a period of 12-18 months.</p>

- Compensation and insurance bodies

Name of the Body	Labour Market Insurance AES
Link	https://www.aes.dk/
Short abstract	<p>Labour Market Insurance (Arbejdsmarkedets Erhvervssikring – AES) is an independent institution administrated by the Danish Labour Market Supplementary Pension Scheme (Arbejdsmarkedets Tillægspension – ATP).</p> <p>AES follows the applicable regulations in determining whether an injury or illness can be classified as an industrial injury. When an injury or illness can be recognised as an industrial injury, AES then decides the amount of compensation payable.</p> <p>AES funds and pays compensation for recognised occupational diseases. It is mandatory for all private and public sector employers in Denmark to contribute to AES.</p>

- Prevention services

Name of the Service	NONE
Link	
Short abstract	<p>The Danish Occupational Health Service system was modified by the government in the Working Environment Reform in 2005. The previous mandatory system that required enterprises to seek advice from the Occupational Health Service was replaced</p>

	<p>with a system based on a combination of market-based consultancy and Working Environment Service authorised consultants.</p> <p>If a company is found to have an OSH problem, the Danish Working Environment Authority can issue a consultancy notice, ordering the company to seek advice from an authorised health and safety consultant, who must help solve the problem, and also reinforce preventive OSH activities.</p>
