- OSH Infrastructure

Scheme:

- OSH Authorities

| | |
|-------------------|--|
| Name of Authority | Ministry for National Economy (Nemzetgazdasági Minisztérium – NGM) |
| Link | http://www.kormany.hu/en/ministry-for-national-economy |
| Short abstract | The minister is responsible for employment policy, professionally controls and is the authority for OSH inspection activities of the district offices of the government offices that are acting as OSH authority. The Department of Occupational Safety and Health (Munkavédelmi Főosztály) is within the State Secretariat for Vocational Training and the Labour Market (Munkaerőpiacért és Képzésért Felelős Államtitkárság). The Department performs legislative, coordination and functional activities. The most important tasks are the authoritative and professional control, state control and supervision tasks related to occupational safety, data collection and statistical analysis. Furthermore, it informs and counsels the public about issues concerning occupational safety and health. The Department performs certain authority activities as |

| | |
|------------------|---|
| | occupational safety expert and operates the information technology system of the OSH authority. In addition to this, the Department participates in national and international committees and operates the Hungarian Focal Point of the European Union Agency for Safety and Health at Work |

| | |
|-------------------|--|
| Name of Authority | National Public Health Institute (Országos Közegészségügyi Intézet – OKI) |
| Link | https://www.antsz.hu/ |
| Short abstract | The National Public Health Institute (Országos Közegészségügyi Intézet – OKI) is the background institution of the ministry responsible for health (EMMI), which was founded by merging other institutes (National Centre for Epidemiology – OEK, National Public Health Center – OKK, Office of the Chief Medical Officer – OTH), delegating task to the Ministry and reducing personnel. Its Occupational Health Directorate (Munkahigiénés és Foglalkozás-egészségügyi Igazgatóság – MFI) is the successor of the National Institute of Occupational Health (Országos Munkahigiénés és Foglalkozás-egészségügyi Intézet – OMFI). The Directorate professionally controls the field of occupational health (occupational medicine and work hygiene), being the organisational part of OKI, who is the body granted with national occupational health powers. Most important tasks in the (i) professional control, (ii) expertise, (iii) training, further education, information provision, (iv) international professional fields are: development of standard protocols, giving background support and expertise, activities specified in legislation, assessment and analysis, (further)education, publication of professional journals, and international co-operation. In addition to this, the Directorate performs laboratory measurements and special medical examinations.[38] |

| | |
|-------------------|---|
| Name of Authority | The occupational safety and health units of the Metropolitan and County Government Offices (Fővárosi és Megyei Kormányhivatalok munkavédelmi egységei) |
| Link | http://www.kormanyhivatal.hu/ |
| Short abstract | The organisation of metropolitan and county government agencies belongs to the Prime Minister's Office. District offices in the county-seats perform the OSH inspections. There are occupational safety and occupational health experts available to control the meeting of legal requirements (inspection, sanctions), counselling and the investigation of work accidents and occupational diseases. The units can ask for support from other departments within the office (e.g. public health). Other supervisory organs also perform occupational safety tasks such as the Hungarian Office for Mining and Geology (Magyar Bányászati és Földtani Hivatal). In case of certain distinct areas |

| | |
|------------------|---|
| | (armed forces, law enforcement and disaster management bodies, etc.) the given sector issues safety and health regulations pursuant to special authorization in the law. Furthermore, these bodies supervise the enforcement of the OSH regulations falling within their competence. Recently there is an approximation towards the civilian legislation. |

- Compensation and insurance bodies

| | |
|------------------|---|
| Name of the Body | NONE |
| Link | |
| Short abstract | <p>The current Hungarian regulations do not separate the accident insurance system, although the issue of its introduction is repeatedly being raised in national strategies. The employer pays social contribution tax after the employees, which partly covers health care costs as well. The value of the contribution, which is set in legislation, is the same for every employer and employee and is independent from the dangerousness of the job. Thus the employer is not directly interested in decreasing the risks inherent in the work environment.</p> <p>Following the dissolution of the National Office for Rehabilitation and Social Affairs (Nemzeti Rehabilitációs és Szociális Hivatal – NRSZH), tasks like the establishment of disability pension, accident disability pension, accident-related allowance, rehabilitation allowance, health damage annuity for miners and the establishment of degree of lasting health damage and the portion thereof arisen in relation to occupation [...]are administered at various places. Generally, cases are handled in district offices, while the Rehabilitation Department in the Government Office of Budapest (Budapest Főváros Kormányhivatala Rehabilitációs Főosztálya) and és a (Szociális és Gyermekvédelmi Főigazgatóság – SZGYF) national level.</p> |
